

Attorney Docket No. P66334US0

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Letters Patent of Heinrich KÖEHNE et al.

Patent No.: 6,793,693 *B1* [Serial No. 09/744,752]

Issued: September 21, 2004 [Filed March 23, 2001]

Title: METHOD FOR UTILIZING A FUEL BY USING EXOTHERMIC PRE-REACTIONS IN THE FORM OF A COOL FLAME

RENEWED/REPLACEMENT REQUEST FOR CERTIFICATE OF  
CORRECTION UNDER 37 CFR §1.322

Commissioner for Patents  
Attention: Virginia Tolbert  
Certificate of Correction Branch  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Patentees wish to thank Ms. Virginia Tolbert, Certificate of Correction Branch, for the courteous consideration rendered their undersigned representative during a telephone conference on August 8, 2006.

By the instant paper the missing support for two requested changes "denied" pursuant to the PTO letter dated September 15, 2005 (copy attached)—in connection with the Request for Certificate of Correction filed July 12, 2005—is provided, as explained below.

The attached Form PTO/SB/44 contains the same corrections—revised to better comply with MPEP 1485 and to, also, rectify clerical mistakes—requested in the Form PTO-1550 (proposed Certificate of Correction) attached to the previously filed Request for Certificate of Correction.

According to the aforesaid PTO letter, the two requested corrections—to the "Abstract, line 8," and to "column 16, line 37" (claim 12)—were "denied" because "no support was submitted with [the] request."

Attorney Docket No. P66334US0  
U.S. Patent No. 6,793,693

The correction to the Abstract, line 8, is supported by the original application claim 1, lines 6-7, and original application page 4, last 4 lines. Support for the requested correction to the Abstract is, now, expressly set forth.

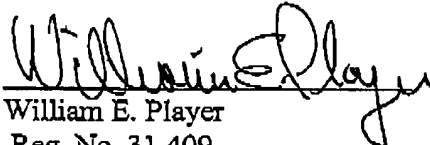

The correction to column 16, line 37, which changes the dependency of patent claim 12 from claim "10" to claim -9-, is necessitated by an obvious clerical error. When application claim 31 (which depended on application claim 28) was rewritten as new application claim "32"—corresponding to patent claim 12—the claim dependency should have been changed to claim "29"—corresponding to patent claim 9—but it was erroneously changed to application claim "30"—corresponding to patent claim 10. Support is, now, expressly provided for the requested correction to column 16, line 37.

Favorable action is requested.

Respectfully submitted,

JACOBSON HOLMAN, PLLC
